

Wittmann & Partner Computer Systems participates to BINARY 2000, the National Fair for Software Products and Services

Between 18 and 20 October, the National Fair for Software Products and Services, BINARY 2000, will take place. The event is organized at Romexpo Bucharest by ARIES – Romanian Association for Software and Electronic Industry. At the fair we promoted SEA, a multi-agent system for information retrieval.

About SEA

Search Engine Agents is a multi-agent system that helps you working with databases from inside or outside of the company, a solution that improves the classical method of searching, recovering and processing the information you need.

By efficacious and simultaneous utilization of the best technologies of indexing and recovering, SEA offers new functions of Artificial Intelligence. SEA helps you easily find the information and it stores the results on the workstation, organizing them in a clear manner, automatically eliminating the duplicates.

About Wittmann & Partner

Wittmann & Partner is a company located in Sibiu, Transylvania, in the center of Romania, specialized in software development, implementation and maintenance. Our focus is on developing and implementing Internet, Intranets and client-server applications for Windows and Linux/Unix platforms. Companies from Germany, UK, Italy, France and Romania have chosen us as their trusted partner for software development.

Our company was set up from a joint venture between AIRG Sibiu and Wittmann EDV-Systeme GmbH on 1st *September 2000* and the name changed in "Wittmann & Partner Computer Systems" (WPCS). With this alliance Wittmann & Partner gained two major advantages. First is the new know-how that we received from German side and second is that we are able to increase the quality of services to the western standards.
