

Wittmann & Partner Computer Systems organizes the „BPSC 2005” seminar

Wittmann & Partner in cooperation with IBM Romania organizes the „**BPSC 2005**” Event. The purpose of this action is to offer the latest information about hardware and software products, and also about the newest IBM technologies.

The event will take place on the 2nd of March 2005, at 10 A.M., in the Conference Room of Ana Hotel, Alba Iulia Street No. 120.

Between the frameworks of this conference the latest IBM products and technologies will be presented to local users: hardware technology – Total Storage, Server xSeries, Desktop PC & Notebooks; software solutions – Lotus Notes/Domino and the Document and Knowledge Management application, ConnAct.

About ConnAct - a solution for Document and Knowledge Management

An important part of the presentation will be conferred to ConnAct – a system built on IBM technology (Lotus Notes/Domino Server platform). ConnAct is a solution for Document, Project and Knowledge Management, which facilitates the centralization of information and the direct access (based on access levels) to all the important information inside an organization, archived and updated.

About Wittmann & Partner

Wittmann & Partner is a company based in Sibiu, specialized in software development, implementation and maintenance, outsourcing for clients all over the world. We focus on developing and implementing Internet, Intranets and client-server applications for Windows and Linux/Unix platforms. Companies from Germany, UK, Italy, France and Romania have chosen us as their trusted partner for software development.

In order to cover the most specific necessities of each customer, Wittmann & Partner offers both ready software solutions and solutions on demand. Our company develops competitive software applications according to the requirements of our customers: small, middle or large companies and governmental institutions.
